KalaMitica magnetic system

ISTRUZIONI DI MONTAGGIO PER I PANNELLI KALAMITICA 145x100 CM

Occorrente

Attrezzature necessarie

Materiale fornito

x4 x4 x4

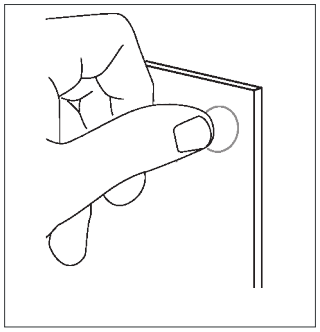

Materiale consigliato (non fornito)

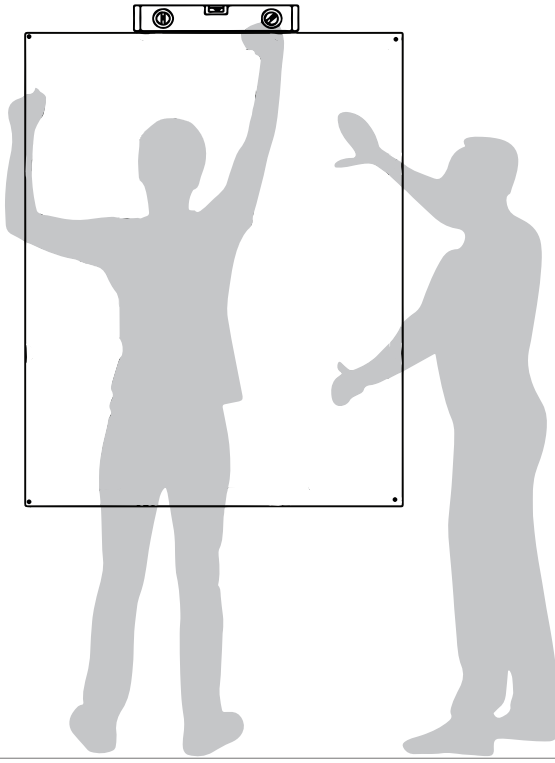

Colla siliconica

Come procedere

1. Estrai la dima in cartone dalla confezione; rimuovi i 4 piccoli fori pretagliati agli angoli.

2. Con l'aiuto di un metro e di una livella, posiziona la dima sulla parete all'altezza desiderata, poi segna con una matita all'interno dei 4 fori.

3. Togli la dima, fora con il trapano in corrispondenza dei punti segnati e inserisci i tasselli a muro.

4. Posiziona la lavagna a muro, inserisci le viti e fissale con un avvitatore.

5. Applica gli adesivi coprivite.

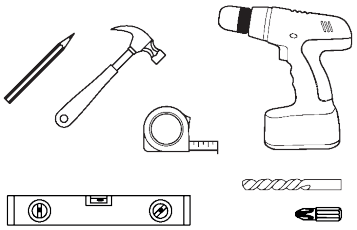

Nota: Per una migliore aderenza a parete, consigliamo di applicare anche della colla siliconica sul retro della lavagna prima del fissaggio con le viti.

KALAMITICA 145x100 CM CHALKBOARDS - MOUNTING INSTRUCTIONS

You will need:

Tools required

Materials included

x4 x4 x4

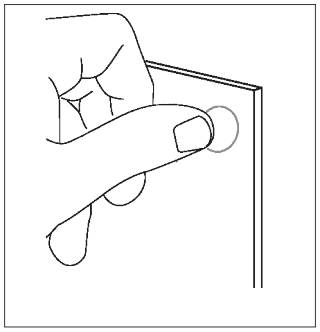

Recommended (non suppluied)

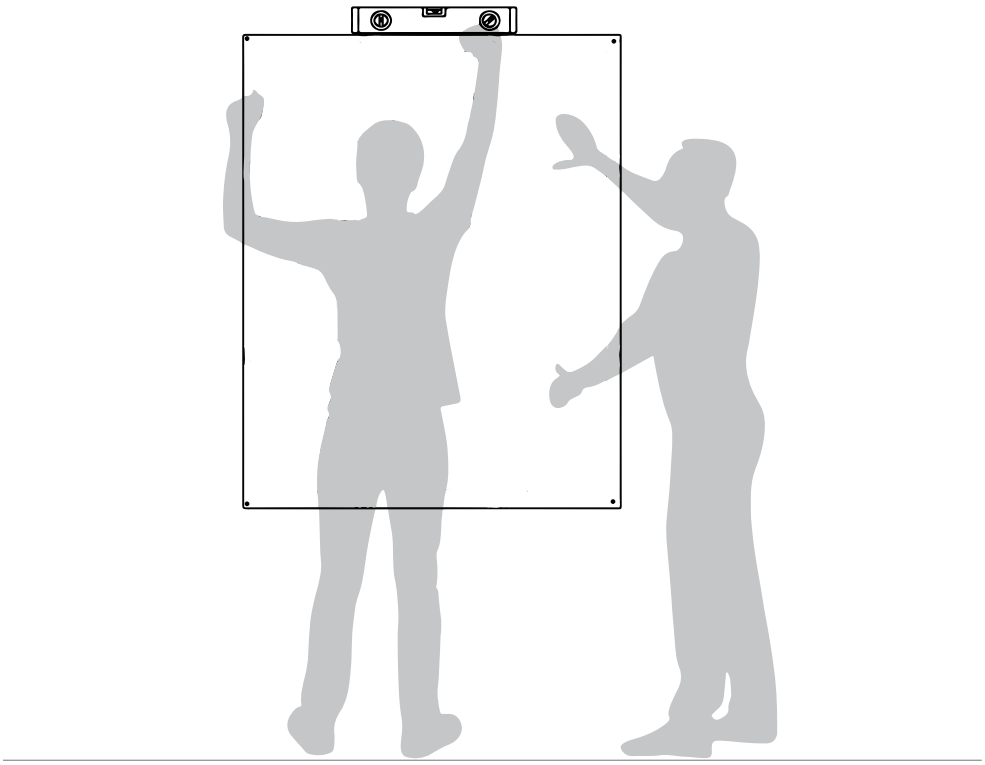

heavy-duty glue

Mounting instructions:

1. Take the cardboard template and remove the 4 small pre-cut holes in the corners.

2. With a tape measure and a spirit level, place the template on the wall at the desired height, then use a pencil to mark the position of the 4 holes.

3. Remove the template, then drill the marked points and insert the wall plugs.

4. Place the board on the wall, insert the screws and secure them with a screwdriver.

5. Apply the screw hole stickers.

Note: For a better adhesion to the wall, we recommend also applying heavy-duty glue to the back of the board before fixing with screws.
